

Simpra KDS

View orders instantly with the **Kitchen Display System!**

Orders are instantly in the kitchen when they are ready, at the service!

The Simpra Kitchen Order Management System allows kitchen staff to easily manage table orders, take-away and package orders from the kitchen screen. Thus, flawless communication is established between the kitchen and service staff from the moment the orders fall to the POS system until they are served.

POS Integration

All orders falling into the POS system are instantly displayed in the kitchen order management system.

Touch Screen

Order details, preparation times and order status are managed on the touch screen.

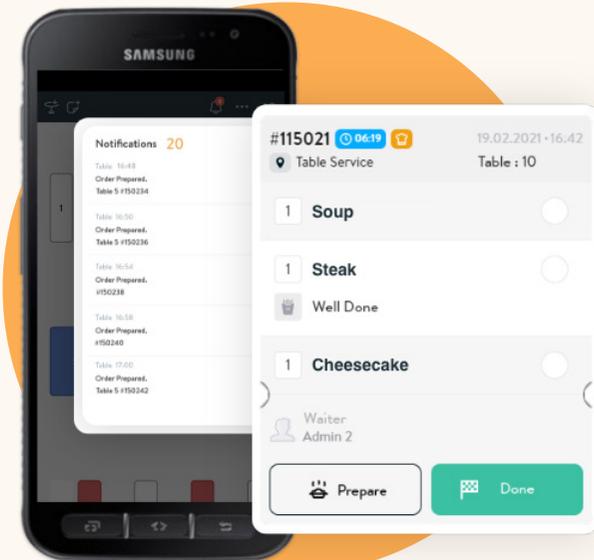

Order Status

The order status is determined as “Ready” or “Being Prepared” by the kitchen staff.

Order Notice

A notification is displayed on the hand terminal when the order is ready. Thus, you can promptly serve your customers without keeping them waiting.

Thank You
